### Info

The largest, most luxurious apartment in the development; this four-bedroom, three-bathroom (two of which are en-suite), is the king of homes. Two of the bedrooms open onto a balcony, with a second, larger balcony wrapping around the exterior of the living area in an elegant curve. There is so much space for your family to relax, dine or just enjoy the first-class lake and park views—an exclusive commodity in apartment living.

Maybe you will choose to create a dedicated study or use the extra room as a large walk-in storage or utility room for uncluttered living. And who will get to enjoy the bedroom with an additional study or reading nook? You decide.
